BRINGING LAW DOWN TO EARTH.

Lucy didn't meet a lawyer until she was 18. Step Into Law changes that.

"The Norfolk Virtual School is incredibly grateful to Lucy Barnes for leading a fantastic 'Step into Law' event for care-experienced young people. Throughout the day, our young people took part in fun, interactive activities including a **legal debate and mock trial**. There were lots of opportunities to ask questions and network with the guest speakers, and **build meaningful connections**. Lucy shared her **powerful and inspirational story** of her time in care, and how she overcame challenges and barriers to **successfully pursue a legal career and fulfil her goal of becoming a barrister**. Her use of video journalling **brought this story to life** and helped inspire our young people **to get a sense of how this may be a realistic pathway for them too**. It was lovely to see the participants confidence build up throughout the day and for them to make connections with individuals who can support their onward career paths."

WHAT PEOPLE ARE SAYING

"Thank you Lucy for delivering such a lively debate workshop with our young people at our children in care summer school. You've definitely inspired some of the students to consider a future career in law"
